

Thank you for the localism campaign. As my children grow older I have come to appreciate how accessible the FCC is making itself to parents. Your efforts to serve the public have not gone unnoticed. That said, I need to impress upon you how important it is that you NOT expand the Low Power FM broadcast service. In doing so LPFM would take priority over K-LOVE, our family's constant source of information and entertainment. It serves us as a station we trust our kids to listen to, one that does not have to be constantly monitored or explained. (You will not find yourself fining them for broadcasting filth!) If K-LOVE were displaced by an LPFM broadcaster the results would be horrible - already on certain days it is difficult to tune them in but we persist with the static background because of the encouragement that rings through this station! This encouragement is why the service by K-Love is in the public interest. How many radio stations are designed with kids in mind - where they can hear totally wholesome words, nothing reckless, nothing which glamourizes wrong paths and poor choices? K-LOVE owns the market in this area! Please do not erode their effectiveness! Thanks for listening! Connie and Stan, Olivia (age 8) and Stanton (age 6)
